

AccountMate 6.5

The Solution That Fits

AccountMate is designed to address the needs of mid-sized businesses in many industries. It takes advantage of the speed of client/server technology, Crystal Reports writer, and the latest productivity-enhancing tools in Microsoft's BackOffice suite of products.

This leading-edge application combines the full functionality of our award-winning AccountMate system with the power of Microsoft's SQL Server at an attractive price. Microsoft SQL is recognized as the fastest-growing database platform in the world. It offers AccountMate SQL users enhanced investment protection for the long haul with superior scalability, up-time performance, stronger data security and easier E-commerce implementation.

What's New in Version 6.5

With a totally new user interface, AccountMate 6.5 offers more significant solutions to the market than ever before.

New User Interface

AccountMate 6.5 presents a new face to the user. The new design brings a multi-million dollar look and dynamic new features to the basic menu options:

Invoice #	Date	Invoice Amt	Balance	Apply Amt	Apply Discount	Apply Adj	Unapply Balance	Urg
1	01/28/04	1500.00	1,500.00	1,500.00	0.00	0.00	0.00	2
Total		967.74	967.74	967.74	0.00	0.00	0.00	

Look-up

The look-up feature includes a Search Window where you can select the fields to be displayed, export data in the grid to Excel, sort particular fields in either descending or ascending order and save the Look-up settings as a macro.

Shortcut Pane Toolbar

With the Shortcut Pane Toolbar, you can add folders, AccountMate functions, program shortcuts and express icons right into the AccountMate main menu window. You can also view "My Recent Documents" and "Favorites" in a special folder. AccountMate allows you to personalize the organization of the Shortcut Pane, collapse and expand the tree, and save the last setting making it ready for your next use.

"The radically redesigned user interface in AccountMate 6.5 gives my customers the ability to further customize their interface experience. These new changes are increasingly giving customers their own personal version of AccountMate that works and responds just as they'd like it to. Great stuff!"

Dave Bilbrey
President, DBC-Everest

Access to Word, Excel, Outlook and the Internet

The new user interface (UI) includes icons for Word, Excel, Outlook and the Internet, which will automatically open the corresponding application when clicked.

Dual User Interface

Now you have the flexibility to choose which interface you want to use. Configure your workstation according to your preferred UI; the original AccountMate UI, or the new and improved UI in AccountMate 6.5.

Error Report

The Error Report window stores pertinent information each time an application error occurs. This allows you to view a description and send a report containing the details of the error to the recipient of your choice, for instance, your AccountMate Reseller, AccountMate Technical Support or AccountMate Customer Service, to help you troubleshoot the issue.

Doc-on-Disk

An electronic form of the AccountMate User Documentation is available for all users at any time. A PDF file of the documentation for each module is available.

Hassle-Free Module Activation

Activating the modules you've purchased is now as easy as 1-2-3. Simply enter the product key provided with the AccountMate 6.5 software, and the system will automatically activate all of the modules you purchased.

AccountMate 6.5 for SQL and MSDE

AccountMate 6.5 is a real-time, customizable business management and accounting solution designed to address the needs of medium-sized businesses. AccountMate takes advantage of the speed of client/server technology and the latest productivity-enhancing tools from Microsoft's BackOffice suite of products to create an inclusive solution that is designed to help you better manage your business.

AccountMate MSDE is available for small businesses with up to five users; AccountMate SQL is designed for hundreds of multiple users and larger databases. Both versions have the same look, ease of use, number of modules and are source code modifiable.

About AccountMate

Founded in 1984, AccountMate develops and markets business and financial management source code software for mid-sized businesses. With worldwide headquarters in San Francisco, Calif., AccountMate has over 120,000 users and 1,450 authorized resellers worldwide. Visit AccountMate at www.accountmate.com.
